- More than 5 million Americans are living with Alzheimer's. By 2050 this number could rise to epidemic proportions.
- Since 2000, deaths from heart disease have decreased by 14%, while deaths from Alzheimer's disease have increased by 89%.
- African-Americans are about twice as likely to have Alzheimer's or other dementias as older whites.
- Almost two-thirds of Americans with Alzheimer's are women.
