

Access Client Solutions Install Instructions

- 1.) FTP IBMiAccess_v1r1m6.zip directory from [ftp.1stoption.com](ftp://ftp.1stoption.com)
 - a. Enter user id=[foihostcst](#) and password= [c51yY98](#)
2. Extract All to folder location /Users/user_id/IBM/ClientSolutions/ replacing user_id with the windows user id on PC
3. Go into the IBMiAccess_v1r1m6\Start_Programs\Windows_i386-32 Folder, right click on acsLaunch_win-32 and copy, place cursor on desktop, and paste shortcut. The name of the shortcut should be "Access Client Solutions"
4. Go into Client Access Solutions (double click on icon just created in step 3) and select system configuration, select new, and system name and description (e.g., FOI400, First Option Hosting)
5. In the system tab, select system created in step 4 and 5250 emulation which should present you with a green screen
6. You can now save this icon to the desktop and configure a printer device, if needed.
