

Our families in Houston and Dallas received the V.I.P treatment this summer at our annual Movie Day. This year's feature movie was Cars 3! For a lot of our families, normal, every-day activities, like going to the movies, can be incredibly difficult. This allows them an opportunity to simply enjoy a burden-free day as a family.

We were lucky to have met the biggest Cars fan at our Houston Movie Day! Motivating your child to take the extreme amount of cancer medication can be a challenge. Sawyer's mom inspires us with her Cars themed sticker chart! Sawyer earned stickers for every time he took his medication. The prize at the end of filling out the chart was Movie Day with Heroes for Children! Sawyer couldn't contain his excitement when the day finally came! He showed up in style, completely decked out in his favorite Cars gear! We are so proud of Sawyer for filling up his sticker chart and joining us this year's event.

In 2018, it is our goal to bring this event to our families in Fort Worth and Austin. We serve many families in these cities and they could all use a day at the movies! If you would like to help us make that possible, please contact:
