

# Kentucky TeleHealth Network (KTHN) Webinar

March 28

3-4pm EASTERN/2-3pm CENTRAL

*Presented by the KTHN Resource Centers and  
the Kentucky Office of Rural Health*

## **“Telehealth 101 and Open Forum Discussion”**

The Kentucky Office of Rural Health and the Kentucky TeleHealth Network (KTHN) will conduct the first statewide telehealth webinar on Wednesday, March 28 from 3-4pm EASTERN/2-3pm CENTRAL time. This webinar series is intended to supplement the 2<sup>nd</sup> annual Kentucky TeleHealth Summit, which will be held on May 24 in Midway Kentucky. Registration for the Summit will begin in early March.

KTHN and the Kentucky TeleHealth Resource Centers field calls nearly every day from those who are interested in deploying telehealth technology but are not sure how to start. This webinar is targeted to those who are new to telehealth and we hope those who are experienced with the technology will participate as subject matter experts who can contribute during the open forum. We expect to discuss legal and regulatory matters, basic technology and other topics that should be of interest to nearly everyone.

We hope to move through the presentation quickly and leave at least 20 minutes for Q&A. This will be your opportunity to ask questions and if we cannot answer them immediately, we will get the answers for you and respond to the group. We hope to conduct a statewide webinar every 3 months, 3 times each year and the 4<sup>th</sup> event will be the annual Kentucky Telehealth Summit.

You do not have to register for the webinar, but we do ask that when you log in on the day of the event, please type your email and full name when asked.
