

A MUSTARD SEED OF WISDOM

"I feel that being a part of the Catechesis of the Good Shepherd has shaped how involved I am in my faith today. Over the course of my life I have been through many trials. But through each trial, God has brought me to a deeper relationship with him. Yes, there have been periods of doubt and strain, but I find the greatest comfort when I return to the Shepherd. The atrium experience taught me how to notice God at work in my life. Even as a child I was exposed to his teachings, mercy and grace. I believe that that molded me into the woman that I am now. I remember being so excited to learn and practice the faith in a hands-on manner. I look forward to placing my own children in the Catechesis of the Good Shepherd so that they can learn the beauty of the faith as I did."
