

Job Title:

Router

Job Description:

Organize daily routing sessions utilizing our routing software, ensuring optimal efficiency within route/driver limitations. Continuous maintenance of routes with consideration to delivery locations, time-stop windows, and miles; analyze and restructure routes as needed. Collaborates with Operations Manager and sales team to improve, change, or alter delivery sequence or frequency. Analysis of daily and/or weekly routing solutions to point out possible inefficiencies. Develop optimum routing solution for 40-50 routes throughout New Jersey, New York, Delaware, and Pennsylvania. Analyze data as it relates to truck performance and driver behavior, and provide reports to Operations manager.

Reporting Structure: This position reports to the General Manager
