The Brain Injury Association of Rhode Island is the only organization in Rhode Island that is dedicated solely to the cause of brain injury. Through our Brain Injury Resource Center in East Providence, we've been able to provide help and information to more than 7,000 Rhode Islanders and their families in the past year. Our goals include support of prevention education programs and community outreach to increase public awareness of brain injury and it's consequences. We continue to update materials in our Resource Center providing information to survivors, families, caregivers, professionals and the public.
