STEM *into* Nature

with Riveredge Nature Center

What if nature were as integrated into our daily lives as technology is today?

Scientists who study Science, Technology, Engineering, and Math (STEM) are exploring new ways of learning about the environment through the aid of technology. Drones, robots, underwater ROV's, virtual reality and GIS are just a few of the tools that have enabled the conservation field to elevate to new heights. We invite you to get hands-on with these tools and the people behind them while you travel through Riveredge's 380-acre outdoor laboratory. Join groups from all around southeastern Wisconsin and discover the careers that naturally blend STEM and conservation together.

School Day

Thursday,
May 3rd
10 - 2 p.m.
\$5/student

Homeschool Day

Friday,
May 4th
1 - 4 p.m.
\$5/child or
\$15/family

Community Day

Saturday,
May 5th
10- 2 p.m.
\$5/child or
\$15/family

 Registration information coming early 2018.
