

## Andy Zirkle

IT Field Technician

Andy joined the Portland Internetworks team as a Service Desk Technician in early 2015. He quickly worked his way up to IT Field Technician, diligently acquiring his Microsoft Technical Associate certificate and working towards a CompTIA A+. Andy's specialty is in customer onboarding, in fact, he might be one of the most recognizable faces in our company, because he spends so much time onsite with our clients. A big part of his job is executing large-scale workstation installations and ensuring a smooth transition following complex projects. He's fast, reliable, and great at anticipating potential problems.

Besides being a hard worker and all around great guy, Andy is also a new parent and homeowner. He and his wife Kara are thrilled to welcome their new baby girl later this summer, and teach her the lyrics to every Timbers Army chant—it's important to start them young. When he's not building IKEA furniture or practicing his Dad jokes, you can find Andy blowing off steam as the Assistant Team Captain of his local hockey team, Apuckalypse Meow. We're glad that Andy is a big part of the Portland Internetworks family and we can't think of a better person to introduce new clients to our company ethos and culture.
