

Ultimate Parsha continued...

One of the programs in which we take great pride at RMBA is our service learning. Via this program we actively encourage our students to serve the community...and the best learning experiences are those we experience together. Both the Better Together program and our Yom Chesed are excellent examples of the adults and students partnering to serve. It is not enough to tell our students "it's important to help in the community." Only by our collective actions do we demonstrate these values.

Indeed actions speak louder than words, particularly in terms of educating our children about the values most dear to us.

Shabbat Shalom,

Paul S. Oberman
