

Love Life Memorial Scholarship

The Love Life mission is to create a positive experience for all and help others to gain understanding of why Love Life wants to positively impact the lives of others. The group was inspired by a young girl who truly loved every aspect of her life – her family, her friends, her music, her school and every child – healthy or ill – with whom she had contact. Love Life incorporates the spirit of Kristin Appelberg into all that they do.

This is Kristin's story: She was born on April 23, 1994 at Bridgeport Hospital. From birth, Kristin had many medical challenges to overcome and, for the next 15 years, she fought every one of them with courage, determination, and character. On December 21, 2009, Kristin passed away from a medical condition that was too severe even for her to overcome, but her spirit lives on.

Despite all the medical challenges she faced through her short life, Kristin's days were full of love for all that life gave her, love for her family, for her friends, for her music, for her TV shows, and for school. It was from a 2009 school notebook that her parents found the simple words, artistically printed by her hand, that epitomize the very essence of her being -- "Love Life".

Her parents have committed to remembering "Love Life" as Kristin's legacy, and they want to share it. They hope that those who knew Kristin will keep her spirit alive with these words. For those who did not know her, they hope they can display these words and focus on the things in their lives that they love.
