
Welcome Letter from the President of the El Paso Chapter

April 17, 2017

Welcome to 2017 fellow fraud fighters of the El Paso Area ACFE! We are proud of the countless accomplishments the Chapter has experienced over the past two years and we look forward to what the future holds. The Chapter has experienced early success due to your continuous involvement and commitment to learning. Success is measured not by a dollar amount, rather, success is defined the moment information is shared and knowledge is captured. When knowledge is acquired, it enriches not only the individual, but it enhances those around the individual, to include the community.

It is exciting to see the tremendous interest the El Paso area has in the emerging field of fraud. The Board notices this level of interest and works passionately to provide quality trainings and activities at affordable prices. By providing quality trainings that deliver specialized knowledge, we aim to make the El Paso Area ACFE your primary source of CPE. In addition to trainings, the Board is ecstatic to organize events that reward and illustrate our appreciation of you.

The Chapter is continuously growing and your involvement has allowed the Board to create activities that enrich the community. Such activities include community service projects and guest speaker appearances. We have points of contact in place that members of the Chapter and community can reach out to if opportunities arise that will serve the El Paso area. We also encourage you to volunteer to serve on the Board, as well as provide any suggestions you may have regarding trainings, events, and community service opportunities.

Technology is a part of our daily lives and its capabilities reach far beyond anything we could have ever imagined. The Chapter recognizes this evolving landscape of technology and how it relates to the timely transmission of information, and has increased its footprint on the web. You can find updates on the Chapter website, www.elpasocfe.com, and you can also find the Chapter on Facebook, facebook.com/elpasocfe, and Twitter [@ACFE192](https://twitter.com/ACFE192). We utilize these channels to provide you with trending fraud topics, valuable resources, job opportunities, chapter announcements, and member accomplishments!

Each of you add unique experience and value to the Chapter, and the community will benefit greatly from your involvement. We look forward to getting to know you and together, share knowledge, spread the awareness of fraud, and enrich the El Paso area!

Regards,

Anthony Morales, CFE

President, El Paso Area Chapter of the ACFE
