Tuesday, August 21, 2018
6 PM Doors Open • 6:30 Program Begins
Drury Lane Theatre &
Conference Center
100 Drury Lane, Oakbrook Terrace, IL

Documentary Screening & Discussion of Dementia Friends

About Our Presenter:

Susan Frick, MSW, LSW, has worked in the Alzheimer's field for over 30 years and is currently the Director of Without Warning®, a support program for individuals and families who live with younger onset Alzheimer's. She works with patients and families in the Rush Memory Clinic and with people involved in Rush Alzheimer's Disease Center research studies. She is a highly sought after speaker on Alzheimer's both locally and nationally.

Living with Alzheimer's disease is challenging, changing life for both the person with the disease and their family. But what if someone diagnosed was in their early 60s, 50s or even as young as in their 30s? Younger onset Alzheimer's disease affects people 65 years old or younger.

"Too Soon to Forget" takes an in-depth look at the particulars of younger onset Alzheimer's and provides information to help educate viewers about the effects and its impact. With stories of nine families from the RUSH Alzheimer's Disease Center's support group, Without Warning®, this documentary will begin a national conversation that encourages awareness, understanding and acceptance.

FREE TO ATTEND

RSVP by August 14 to Kaitie at (630) 293-5990 or khauser@ageguide.org

Your Guide to Aging Services

Chartered in 1974, the Agency on Aging is a non-profit organization dedicated to combining resources, leadership and expertise on aging. Serving DuPage, Grundy, Kane, Kankakee, Kendall, Lake, McHenry and Will Counties. Visit us at www.AgeGuide.org.

This seminar is possible through the National Family Caregiver Support Program
authorized under the Older Americans Act.
