

*Passport's development team is hard at work on the next release, PBS version 12.05, due out in 2017. Enhancements include:*

**1. Merger of common data fields from many "master" files like:**

Vendor  
Customer  
Employee  
Contacts  
Ship-to  
Delivery locations

**Why You Need It:**

Update a single record in a standard format whether the data is for a client, vendor, employee, etc.

**2. Expansion of many fields in all of these modules:**

Accounts Receivable  
Order Entry  
Point of Sale  
Accounts Payable  
Purchase Order  
MFG Customer Order Entry  
MFG Customer file  
MFG Purchasing Vendor file MFG  
Purchasing Address Payroll Employee file

**Why You Need It:**

Finally have room for extended email addresses, multiple cell phones, long web addresses, bigger order numbers, long foreign street addresses, and much more.

**3 New Additional Contact fields:**

SUFFIX  
TITLE  
ADDRESS 4  
COUNTY  
FIPSCODE  
POSTNET  
CARRIER ROUTE  
DOCUMENT KEY  
CELL PHONE 1 & 2  
SHIP TO ZONE (MFG)  
WEB SITE ADDRESS 1 & 2

**Why You Need It:**

Have place to store all that new information that didn't exist 10-20 years ago.

**4. New Ship-to & Purchasing addresses:**

ADDRESS 4  
COUNTY  
FIPSCODE  
POSTNET  
CARRIER ROUTE  
LOCATION-GPS-LATITUDE  
LOCATION-GPS-LONGITUDE  
LOCATION-SHIP-TO-ZONE

**Why You Need It:**

So you can drop ship direct to your client's front porch or plant using your Remote Control Drone Technology (of course).

**5. Continuation of GUI screen development**

**6. A huge number of business and functional enhancements in:**

Accounts Payable,  
Accounts Receivable  
Check Reconciliation  
General Ledger  
Inventory Control  
Order Entry  
Payroll  
Point of Sale  
Purchase Order
