Public Input Meeting: Williston To Allow Mobile Food Trucks

Williston, ND - The City of Williston is announcing a public comment period regarding a new ordinance to allow mobile food trucks within the city. The City of Williston has heard requests for mobile food trucks and after having thoroughly researched the concept will be presenting proposed regulations.

The City of Williston is committed to increasing all possible quality of life measures for their residents and this includes fostering small business growth. The City's goal is to pass the ordinance to be available for use this summer, allowing all properly permitted food trucks and food trucks operating within the bounds of the Health Department to do business in Williston.

A public input meeting will be held at 6 p.m. on June 13th in the Commission Room at City Hall. The City will also be holding several focus group meetings through the Williston Chamber of Commerce.

The proposed ordinance can be found on the City of Williston's website, in the department of Planning and Zoning, under Current Projects. Any comments can be sent to [comments@ci.williston.nd.us](mailto:comments@ci.williston.nd.us)
