

## Internship Opportunities

Looking for a meaningful internship? Be a GRIDtern!

National Grid is excited to offer paid internships that will offer you a wide range of technical, managerial and operational opportunities for summer 2019. These opportunities will help you gain valuable insight into National Grid as well as the Energy/Utility industry as a whole, all the while helping you build your professional network.

Starting May/June through August spend a summer as a GRIDtern and help advance your skills through a first day Orientation Session, hands on projects within your department, volunteer opportunities, field/work site visits, networking sessions (Lunch & Learns, etc.) and much more.

Internship departments may include but are not limited to:

- Electric Process and Engineering
- Gas Process and Engineering
- Field Operations
- Accounting/Finance
- Procurement
- Process Excellence
- Customer
- Marketing
- Information Systems

To ensure you will gain the most out of this experience, as a GRIDtern, we take the time placing you in a department that will provide you with the best hands on experience.

Don't just take our word for it, hear from a Former GRIDtern!

*"I am so thankful for this incredible opportunity that I was given! I am leaving here with many valuable skills that I will use in my future and confidence in my career as a supply chain major. I wanted to say thank you to my team in Master Data for everything they have done for me over the last few months. I cannot wait to come back to this company! #gridtern"*

*2018 Former GRIDtern*

Qualifications for our internship program include:

- 3.0 Cumulative GPA for Undergraduate Students
- 3.2 Cumulative GPA for Graduate Students
- Applicant must have accumulated 18 or more credits and be 18 years of age
- Authorized to work in the United States for the entire duration of the internship
- Registered in school as a full time student

If you possess the outlined job qualifications and are looking for an internship that focuses on team work, building your knowledge base, having the ability to network and developing your career, apply to a GRIDtern position now!

If you're interested in working in other National Grid locations, check out our postings for Internships in: New England (Massachusetts & Rhode Island), Downstate New York (Long Island & Brooklyn) or Upstate New York (Syracuse, Albany & Buffalo).
