

FRIED FISH AND FRIED MINDS

A RESOUNDING SUCCESS!

We'd like to thank the approximately 200 people who attending our First Annual Lenten Fish Fry and special screening of "Screenagers" last Friday night. The feedback we received was overwhelmingly positive.

"The fish was delicious! - way to go volunteers!"

"The movie was a bit upsetting, but in a good way - it moved me to action"

"The student presentation really hit home for me that I need to take this more seriously"

"I'm so grateful to CWA for bringing up these issues and providing support for families"

"Documentary was powerful, relatable, and gave ideas"

"All of the activities together helped build our community and grow as a spiritual family"

One of our students stepped up in a big way to discuss his personal struggle with what technology has allowed him to access, and how he has overcome it.

Technology is by no means all bad, it has many positive aspects to it. However, we cannot allow ourselves to think that the negative aspects of technology are not affecting our kids, our classrooms, and our families.

We encounter problems on a regular basis in our school and in our homes, that are caused by, or magnified by, the misuse of technology.

Many of you requested that we take the next step and continue this discussion as a community, so stay tuned for Part 2 of Fried Fish and Fried Minds and save the date: Friday, June 9 at 7:00pm
