Winter Cabs

**Soft cab includes** a plastic insert to reinforce roof avoiding it to collapse over the weight of the snow or rain.

If used with a Berco accessory, all controls remain inside the cab.

**Note:** If it is not a BERCO accessory make sure the controls remain inside the cab. Refer to dimensions listed below for verification.

---

To choose the right cab for your tractor, measure the width of the tractor, from one footrests to the other. This will determine which size cab is more suitable for your tractor.

---

### 34” Cab

**Fits most brands from 13 HP to 28 HP**

**Cab measurements**

- A Rear height (45.50”)
- B Front height (55.25”)

### Counterweights

Required for safety and better traction. Counter-balances the weight of the attachment mounted in the front of the tractor.

Suitcase weights are quickly & easily removed when not needed.

* The term “universal mount” signifies that it fits on a wide variety of tractors. However, on very few models certain modifications may be required.

A Berco might just be the Last Snowblower You Will Own!

**Berco Two Stage Performance**

1st Stage:  
Is the powerful saw tooth auger which breaks through any type of snow with ease.

2nd Stage:  
Is the 4 blade impeller that turns at a high RPM which propels the snow to further distances.
**Lawn & Garden Tractors**

**Blades**

1. **DURABILITY**
   Material made of 11 gauge steel.

2. **USER FRIENDLY**
   Angling handle allows angling the blade from the seat. Angles 0 to 20° to the left or right.

3. **SECURITY**
   Equipped with large springs that enables the blade to topple over any solid obstacle & return to its original position. Assists to avoid damage to blade and vehicle.

4. **TOUGHNESS**
   Made of 11 gauge steel. An economical way to get your chores done.

5. **VERSATILITY**
   The scraper bar protects the base of the blade. When one side has worn down, simply unbolt it, flip it over & bolt back on for a double life span.

6. **SMOOTHER RIDE**
   Adjustable and replaceable skid shoes. Enables blade to glide over terrain.

---

**Snow Blade**

Model shown 700463-1

---

**Utility Blade**

Blade is reinforced on its back for tougher chores.

Model 700266-2 & 700636

---

**Durable paint**
Black powder coated paint is baked on for a long rust free life.
CONTROLS AT YOUR FINGERTIPS

Engage the tiller using the same system as the mower deck on your tractor. The lever located to the right of the driver will lift and lower the tiller and adjust the depth from 0 to 6” deep.

FITS VARIOUS TRACTORS

Universal mount allows it to fit most brands of lawn & garden tractors with engines between 14 HP and 27 HP.

NO TIRE TRACKS

Offset to the right eliminating tire tracks.

INSTALLATION

SNOWBLOWERS, BROOMS & BLADE only (L & G Tractors)

IN ONLY 2 STEPS!

1. **BOLT ON SUBFRAME**  **ONCE & FOR ALL!**
   Once our subframe is mounted, attach Snowblower, Broom or Blade, it will not interfere with mower deck. The subframe is the portion required to attach the accessory to the tractor. The subframe is specific to the tractor brand and model.

2. **CLIP ON DRIVE MECHANISM**
   This transfers the power from the tractor and activates the snowblower or broom. (not needed for the blades).
   - **BELT DRIVE**
     For tractors with mower decks powered by belt, our Drive Mechanism includes all necessary belts and pulleys required to activate snowblower or broom.
   - **SHAFT DRIVE**
     For tractors with mower deck powered by shaft drive. Attach the shaft drive of the tractor to the half drive line kit. This is needed to power Snowblower or Broom and is included with the Half Drive Line kit.

Clip on any accessory: SNOWBLOWER / ROTARY BROOM / BLADE
Same subframe for all accessories, no additional parts needed, except adaptor for broom. This is made possible with our quick hitch system included with the Berco subframe.

Note: For details on installation/assembly, please refer to the Owners Manual (can be found by typing in the product number at www.bercomac.com)

TILLER

**TOUGHNESS**
Double layered housing made of 14 gauge steel.

**SECURITY**
Protective panel may be raised for easy access to tines.

**DURABILITY**
Driven by a #RC50 chain sealed in a grease bath.

**USER FRIENDLY**
16 tines measure 14” in diameter.
Can be changed individually if needed.

Durable paint
Black powder coated paint is baked on for a long rust free life.

INSTALLATION

TILLER only (L & G Tractors)

Requirement on Tractor

Bolt pattern on rear transaxle of tractor
