The UW Colleges and Extension restructuring project is currently in the planning and development phase. Campuses are actively planning for the transition, pending approval from the Higher Learning Commission later this summer. Leveraging the four-year institutions’ resources and shared talent will expand the educational, research, and community partnership opportunities available to all students. For more information and to sign-up for project updates, visit [https://www.wisconsin.edu/uw-restructure/](https://www.wisconsin.edu/uw-restructure/).

CAMPUS NEWS

UWM Offers Assistance to Students in Puerto Rico

The University of Wisconsin-Milwaukee is providing admissions assistance to Puerto Rican students affected by Hurricane Maria, and other out-of-state students affected by recent natural disasters. Routine transactions, such as obtaining transcripts, have become difficult or even impossible due to power outages and other disaster-related damage. UWM staff met with Puerto Rican students at the APP Strong Puerto Rico event, held in San Juan in mid-December. The event connected the island’s high school and current university students to college enrollment officers, and provided humanitarian aid to affected communities. UWM admission representatives reviewed prospective students’ official and unofficial application records, waived admission fees, and admitted qualified students on site. Admission staff will also help newly admitted students on a case-by-case basis to qualify for in-state college tuition and other assistance they may need to continue their path toward a college degree.
