

# Chub Chub

Chub Chub is a 1 year 10 month old Chow/ Korean Jindo mix who is in search of his forever home. This handsome boy loves to be the center of attention, especially with the ladies! Chub Chub is extremely smart and loves learning obedience and learning new tricks and would love a home that can help him continue on his obedience training. He is a fun boy who would thrive in an active home, especially one that has tennis ball for him to chase. Chub Chub does well with other dogs in similar size and play style, although he does require slow and proper introductions to other dogs. He would love a forever home that can stimulate him mentally and physically that all young dogs require.

# Cuba

This little cutie is a 4 year old Terrier mix who is on the hunt for his forever home. Cuba and his brother (Archie, also available) were surrendered to a shelter where they were petrified! Paws New England took them in and now they are doing extremely well. Cuba was not socialized and spent the majority of his life outside so you can imagine how scary the world must have seemed to him. He still is a little fearful but is discovering that life can be fun and not as scary as he thought. He would love a forever home that can give him the time and patience to adjust, this little sweetie will be well worth the wait!

# Tatum

This very loving and laid back stunning gentleman was rescued from a back yard with 6 of his siblings. Due to lack of socialization Tatum can be a little reserved around people but once he warms up he loves whole heartily. He adores hanging around with his foster family, which includes two canine siblings and prefers not to be alone. Tatum enjoys going for walks, dipping

his toes in the ocean and frolicking with his canine friends. He would love a forever home where he can be with his people the majority of the time, after all he deserves it

# Cece and Crawford

Cece and Crawford are a bonded pair, who truly are devoted to each other and are looking for a forever home. They lived with an older couple but due to the couples declining health, Cece and Crawford found themselves in a shelter. These little sweethearts are approximately 10-12 years old but believe that age is just a number and are enjoying life to the fullest. Crawford (Male) of this dynamic duo is more outgoing than Cece (Female) but she is learning how to come out of her shell daily.
