

WHAT IS THE I-84 HARTFORD PROJECT?

JOIN US for Open Planning Studio #10 to learn about and help plan this project. We are rebuilding over two miles of highway and many of the local streets in Hartford. View drawings of what the city could look like when I-84 is rebuilt. Talk with team members, share your stories, and ask questions at this full-day workshop!

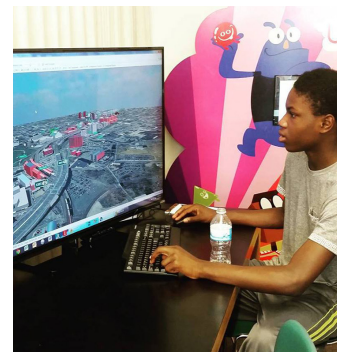

COME EXPLORE and discuss potential concepts for reducing the visual impacts of the highway. Where should the highway be “capped”, or covered over? What would you like built (or not built) on top? We also want your ideas on bicycle and pedestrian connections. What amenities could improve the experience for bicyclists and pedestrians of all abilities? Help plan these features of the project!

TUESDAY, SEPTEMBER 13TH • 12 – 8 PM

**Fellowship Hall • Immanuel Congregational Church
10 Woodland Street, Hartford, CT**

Drop in at any time. Visit i84hartford.com for project and event details.

Your City. Your Highway. Your Solutions.

WE LOOK FORWARD TO SEEING YOU!

Hosted by the Connecticut Department of Transportation
