

**Children's Health Equity Symposium**  
**Friday, March 23, 2018**

**CE Providers:**

## **LEARNING OBJECTIVES**

**At the conclusion of this symposium, participants will be able to:**

- ◆ Explain Adverse Childhood Experiences (ACE) and their impact upon health and social determinants of health
- ◆ Cite the history of ACE research
- ◆ Utilize comprehensive strategies to mitigate the disparities created as a result of adverse childhood experience
- ◆ Apply current recommendations for screenings for Toxic Stress
- ◆ Discuss the impact of Toxic Stress on health and learning
- ◆ Illustrate how to screen for Toxic Stress in the school-based clinic
- ◆ Provide interventions within the school-based setting to help buffer the negative impact of Toxic Stress
- ◆ Describe the historical origins of health disparities in Broward County, FL
- ◆ Review racial disparity data for youth in health care, education and criminal justice
- ◆ List three (3) ways implicit racial bias shows up in health care
- ◆ Identify three (3) strategies for reducing bias
