**Research Centers of America (RCA)** is a privately owned, multi-specialty research site that conducts Phase I - IV clinical trials. RCA in-patient and out-patient studies are made up of healthy and special populations ranging from pediatric to geriatric age groups. The outpatient facility spans approximately 10,000 sq. ft. and is associated with Ventre Medical Associates (VMA), a large outpatient clinic consisting of 7 psychiatrists, 5 mid-level clinicians, and various support staff members. Affiliated with 2 PHP programs and 15 ALFs/SNFs, RCA has a relationship with every major medical center and psychiatric hospital in the area.

**Ventre Medical** is an outpatient psychiatric clinic offering consultation, evaluation and treatment to children and adults with mental health disorders. The board-certified psychiatrists treat a wide range of conditions from depression and anxiety to bipolar disorder, ADHD and autism. Additional outpatient psychiatric services are provided at detox, PHP and IOP locations throughout Broward and Palm Beach Counties. Many of the psychiatrists serve on staff at some of the area's leading hospitals and are experienced at treating patients in acute care settings. The VMA team utilizes the most up-to-date psychiatric techniques and specializes in a variety of treatments for every stage of life: children and adolescents, adult and the elderly, substance abuse patients and addiction recovery.
