Seattle City Light Underground Power Project Seattle Department of Transportation Sidewalk Improvements

11th Avenue between E Pike St and E Union St

Seattle City Light is installing new underground electrical conduit, vaults and associated equipment in parts of East Union Street from 10th to 11th Avenue.

This work is aligned with the City of Seattle's ordinance to underground power lines in this area.

Seattle Department of Transportation restoration includes a wider sidewalk and curb bulb for improved pedestrian mobility and a low speed vehicle environment.
