Imagineering Classes

CSI • Coding & Robotic Fun with Sphero • Lego Robotics • Chemistry Rocks
Biotech Bootcamp • Green Screen • 3D Printing • Drone Flight Training

The San Ramon Valley Education Foundation (SRVEF) is proud to offer *Imagineering*, a beyond school enrichment program for SRVUSD students.

The instructors for these classes are ALL SRVUSD employees, and most are certificated teachers! These classes are located on various school sites in the San Ramon Valley.

All of the profits from *Imagineering* go directly to funding San Ramon Valley Unified School District

programs, initiatives, and grants to support teachers, classes and students.

The program consists of several themes, with courses designed to provide a serious, but enjoyable, science experience to supplement the science exposure elementary and middle school students receive at school.

View all of our open Spring classes on our website at www.srvef.org/Imagineering

Due to generous donations this past year from our Sponsors, we are able to offer more Summer Imagineering classes at reduced prices!

3 day classes will be \$250

4 day classes will be \$325
