

# Special Topic Training for Tutors and Teachers

## Digital Literacy for Tutors

Do you and your learner want to work on computer and digital skills?

Are you unsure where to start, or what resources to use together?

You don't need to be a computer expert to help your student develop digital skills! From basics such as the keyboard and mouse, to word processing, to web navigation and more, there are many activities you can do with your student that don't require a lot of planning and are enjoyable for both of you. What's more, there are free resources out there to help you do it! Join us and learn how easy it is to help your ESL or ABE student get confident and comfortable with technology.

We will:

- Study popular websites and apps that you can use in the classroom or one on one
- Brainstorm lesson activities to go with the digital resources you choose
- Talk about how to correct and guide your student at the speed that's best for them
- Interact and practice with new technology

**Tuesday, May 22, 2018**

**6:00 - 8:30pm**

**Centro Romero, 6216 N Clark, Chicago**

***Presenter Jenny Siegfried** teaches ESL and ABE classes at Waubensee Community College. She has been a leader in using technology with her students, and mentors other teachers and tutors who are taking the leap.*

**REGISTRATION:** Please RSVP. Space is limited. Free member agencies of Literacy Works; \$20 for others. To register, e-mail [register@litworks.org](mailto:register@litworks.org) with your name, email address, phone number, agency, and title of training. Please also indicate if you are a volunteer, teacher, or other staff member.
