Consultant, Division of Gastroenterology
and Hepatology
Mayo Clinic in Arizona, Scottsdale, AZ

CAROL REES PARRISH, MS, RD

Nutrition Support Specialist
University of Virginia Health System
Digestive Health Center
Charlottesville, VA

A CME-certified CLINICAL TOPICS GRAND ROUNDS Program

Jointly provided by Potomac Center for Medical Education and Rockpointe

Supported by an educational grant from NPS Pharmaceuticals, an indirect subsidiary of Shire North American Group Inc.

Contemporary Management of Short Bowel Syndrome

PROGRAM DESCRIPTION

This collaboration-focused session will provide a greater understanding of the complex management of SBS-IF, which has shifted from maximizing remnant intestinal absorptive capacity to enhancing its structural and functional integrity. Increased understanding of this new treatment paradigm, as well as the place of the newest therapeutic agents in the current armamentarium, will lead to an increased ability to deliver state-of-the art care for SBS-IF patients who are dependent on parenteral nutrition (PN).

Contemporary Management of Short Bowel Syndrome will review the clinical perspectives and respective roles of the care team, along with tactics for collaboration. The activity will also explore the incorporation of trophic agents to increase the chances of weaning patients from PN and improving their overall quality of life.

TARGET AUDIENCE

This CME-certified activity is intended to increase the knowledge and competence of physicians, dietitians, pharmacists, nurses, NPs, PAs, patient educators, as well as other members of the team who care for PN/IV-dependent patients with SBS-IF.

EDUCATIONAL OBJECTIVES

At the conclusion of this activity, participants should be able to demonstrate the ability to:

- Collect a thorough patient history to define bowel anatomy and identify any steps already taken toward the management of SBS-IF
- Apply an evidence-based approach to the management of SBS, considering diet, hydration, conventional drug therapy, and trophic factors
- Employ a team-based collaborative approach to the management of SBS-IF patients

ACCREDITATION

Physicians – This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Potomac Center for Medical Education (PCME) and Rockpointe. PCME is accredited by the ACCME to provide continuing medical education for physicians.

Dietitians – The Potomac Center for Medical Education has approval by the Commission on Dietetic Registration (CDR) to provide credits for this Continuing Professional Education (CPE) program for Registered Dietitians.

For information about the accreditation of this program, please email: contact@potomacme.org.

CREDIT DESIGNATION

Physicians – The Potomac Center for Medical Education designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Dietitians – The Potomac Center for Medical Education designates this educational activity for a maximum of 1.0 CPEUs. Dietitians and dietetic technicians registered should only claim credit commensurate with the extent of their participation in the activity.

To receive credit the participant must participate in this one-hour-long program in its entirety; sign in / sign out on the sheet provided by the host coordinator; complete and sign the evaluation form; and return the evaluation form to the host coordinator.

There is no fee to participate in this educational activity.

DISCLOSURE INFORMATION

The Potomac Center for Medical Education adheres to the policies and guidelines, including the Standards for Commercial Support, set forth to providers by the Accreditation Council for Continuing Medical Education (ACCME) and all other professional organizations, as applicable, stating those activities where continuing education credits are awarded must be balanced, independent, objective, and scientifically rigorous.

All persons in a position to control the content of a continuing medical education program provided by PCME are required to disclose any relevant financial relationships with any commercial interest to PCME as well as to learners. All conflicts of interest are identified and resolved by PCME in accordance with the Standards for Commercial Support in advance of delivery of the activity to learners. Disclosures will be made known to the participants prior to the activity.

The content of this activity was vetted by an external reviewer to assure objectivity and that the activity is free of commercial bias.

SPECIAL SERVICES

Event staff will be glad to assist you with any special needs (e.g. physical, dietary, etc.). Please contact the program administrator at least five days prior to the program.
