Nature made, kid approved.

Water — it’s the CLEAR choice
We all know that water is good for us, but not everyone drinks it. Try these refreshing ideas to make water fun and tasty.

- Add slices of oranges, lemons or limes
- Try seltzer water with a splash of juice
- Add sliced cucumbers and fresh mint
- Make juice ice cubes and add them to your water
- Add frozen raspberries or blueberries
- Add fun straws for children

Keep it in a pitcher in the refrigerator for enjoyment all day long!

Do you have any other ideas that would be fun to try?
