

# JA Job Shadow

▲ As part of our JA Job Shadow program, Microsoft Corporate Office hosted a group of 115 students from Olympic High School, Garinger High School, and CPCC for a half-day experience at the company's corporate office in Charlotte. Students learned more about Microsoft, the types of jobs available, the technology industry, and took a company tour. Thank you to Ben Wittgen from Microsoft for coordinating the event and hosting such a large group!

Through our partnership with The Microsoft Store at South Park Mall, students from Rocky River High School, West Charlotte High School, Cato Middle College, Hopewell High School, and Garinger High School have participated in the JA Job Shadow program over the last few months with many more coming up. These events provide students a window into the career opportunities within the company, a behind-the-scenes tour of the store, and interactive components such as mock interviews and product demonstrations. Thank you to our awesome partners at the Microsoft Store, Lakima Spencer and Rachel Bukuts, for their hard work coordinating such a wonderful learning experience for the students.
