

Dear Partners and Colleagues,

We proudly present, as owners, next professional and hydraulic guillotine with digital program possibilities:

Horizon - APC-M58

Machine information:

This professional hydraulic 58 cm guillotine cuts paper, cardboard, chipboard, plastic foils or other sheet materials in one handling job. The sheets can be transported over the stainless steel working table. This compact, but heavy constructed machine has the possibility to work with its computer and digital display with a simple way of programming (9 memories - 6 steps). Settings can be made for programming sizes, steps and all kind of functions for a professional after-press production.
