Dear Partners and Colleagues,

We proudly present, as owners, next professional, modern, large size and hydraulic guillotine with extended program possibilities and complete line with lifters and jogging equipment:

Polar - 137 EMC Monitor

Machine information:
This professional hydraulic 137 cm guillotine cuts paper, cardboard, chipboard, plastic foils or other sheet materials in one handling job. The sheets can be lifted at the right side of the machine with an external lift and transported over the air supplied working table to the jogging equipment and side tables. This heavy constructed machine has the possibility to work with its computer and monitor display and can be programmed to cut automatically. Settings can be made for programming sizes, steps and all kind of functions for a professional after-press production. All settings and programs can be stored on the very easy to handle computer.
