

**Dear Partners and Colleagues,**

We proudly present, as owners, next professional and hydraulic guillotine with air-table and extended digital program possibilities:

## Horizon - MS80B

### Machine information:

This professional hydraulic 80 cm guillotine cuts paper, cardboard, chipboard, plastic foils or other sheet materials in one handling job. The sheets can be transported over the steel working table with air-supply. This compact, but heavy constructed machine has the possibility to work with its computer and digital display with a extended way of programming (99 memories - 99 steps for each program). Settings can be made for programming sizes, steps, push out and all kind of functions for a professional after-press production.
