Dear Colleagues and Partners,

We proudly present, as owners, next professional and complete small size CTP installation with online processor:

AB Dick - DPM 2340

Machine information:

This professional, compact and complete ctp installation produces small size offset plates for all small size offset printing machinery (all portrait scape- and land scape machines in this range). The plates are colour separated and produced without any further manual labour in this nice set of machinery. Development, stabilizing, washing and drying of the plates is done in the integrated plateprocessor.

Specifications:
