Dear Partners and Colleagues,

We proudly present, as owners, next professional and hydraulic guillotine with program possibilities:

Mandelli - 76 HYS

Machine information:

This professional hydraulic 76 cm guillotine cuts paper, cardboard, chipboard, plastic foils or other sheet materials in one handling job. The sheets can be transported over the stainless steel working table (with airsupply) and an extended sidetable at the left side of the machine. This heavy constructed machine has the possibility to work with its computer and digital display and can be programmed to cut automatically. Settings can be made for programming sizes, steps and all kind of functions for a professional after-press production. All settings and programs can be stored on the very easy to handle computer.
