# Disposable Earplugs

3M offers an unmatched variety of hearing protection solutions to help you find the right fit for your unique applications and employees. Our innovative disposable earplugs are designed for extended wear and comfort to help you prevent noise-induced hearing loss on the job.

## 3M™ One Touch™ Dispenser

The One Touch dispenser offers convenient earplug access for workers on the move. The “No Waste Funnel” delivers earplugs with each turn. The reusable, free-standing base can be restocked with One Touch refills of our most popular 3M™ E-A-R™ Earplugs. Versatile design includes tabletop or wall-mount options for convenient dispensing.

## 3M™ Metal Detectable Earplugs

All Metal Detectable earplugs have an integral stainless steel bead encased in the earplug. Ideal for use in food manufacturing industries, when contamination prevention is critical. Available in a variety of comfortable earplug styles to meet most wearer preferences and environmental needs.

See ordering information for NRR values.

Available with Cord  
Metal Detectable  
Slow-Recovery Foam

Available with Cord  
Moisture Resistant  
Slow-Recovery Foam  
One Touch Dispenser Refill

## 3M™ E-A-R™ Classic™ Earplugs

Classic earplugs were the industry's first foam earplugs, virtually revolutionizing hearing protection. Today, the revolution continues. Classic earplugs meet more wearer and environmental needs with their proprietary foams, preferred cylindrical shape and proven in-ear comfort.

NRR 29 dB\*

Available with Cord  
Moisture Resistant  
Slow-Recovery Foam

## 3M™ E-A-R™ Classic™ Small Earplugs

The diameter of a Classic Small earplug is 7% smaller than the Classic earplug (and the same length) to help provide optimum comfort and protection in smaller ears.

NRR 33 dB\*

Available with Cord  
Moisture Resistant  
Available in Metal Detectable  
Slow-Recovery Foam

## 3M™ E-A-R™ Classic™ Plus Earplugs

Classic Plus earplugs are slightly longer than regular E-A-R Classic earplugs to fit deeper into the ear canal and help provide higher noise reduction.

NRR 31 dB\*

Available with Cord  
Slow-Recovery Foam

## 3M™ E-A-R™ Classic™ Soft Earplugs

Classic Soft earplugs are made of proprietary thermal-reactive foam. The earplugs start out firm to allow for easy fitting, then soften from body heat for a comfortable fit.

SuperFit™ 30 - NRR 30 dB\*  
SuperFit™ 33 - NRR 33 dB\*

Available with Cord  
Moisture Resistant  
Slow-Recovery Foam  
One Touch Dispenser Refill (SuperFit 30)

## 3M™ E-A-R™ Classic™ SuperFit™ Earplugs

Classic SuperFit earplugs feature a unique fitting ring to easily see when the earplug is correctly fitted. When no orange color is visible, the best fit is achieved. SuperFit 33 earplugs are ideal for those looking for higher attenuation. SuperFit 30 earplugs are smaller in diameter and length for a comfortable fit in smaller ear canals.

NRR 33 dB\*

Available with Cord  
Available in Metal Detectable  
Slow-Recovery Foam  
One Touch Dispenser Refill

## 3M™ E-A-Rsoft™ Yellow Neons™ Earplugs

E-A-Rsoft Yellow Neons earplugs have a smooth texture for in-ear comfort, are made of an advanced foam for all-day wear and are available in two sizes. Brightly colored for hearing protection compliance sighting, these earplugs are an excellent choice for any hearing conservation program.

NRR 33 dB\*

Available with Cord  
Slow-Recovery Foam  
One Touch Dispenser Refill

## 3M™ E-A-Rsoft™ Yellow Neon Blasts™ Earplugs

E-A-Rsoft Yellow Neon Blasts earplugs are made from a slowly expanding, polyurethane foam material. They provide evenly distributed pressure, which helps them provide a comfortable fit. A red flame design adds fun to serious hearing protection.

NRR 33 dB\*

Available with Cord  
Slow-Recovery Foam

## 3M™ E-A-Rsoft™ FX™ Earplugs

E-A-Rsoft FX earplugs feature a bell shape and super-soft, slow-recovery foam to help effectively seal the ear canal and provide reliable hearing protection. Flared end helps make fitting and removal easier.

NRR 33 dB\*

Slow-Recovery Foam  
One Touch Dispenser Refill

## 3M™ E-A-Rsoft™ SuperFit™ Earplugs

E-A-Rsoft SuperFit earplugs have a smooth texture for in-ear comfort and are made of an advanced foam formulation for outstanding softness. The exclusive orange fitting ring design provides a built-in visual to help confirm proper fit.

NRR 31 dB\*

Corded  
Slow-Recovery Foam

## 3M™ E-A-Rsoft™ Grippers™ Earplugs

E-A-Rsoft Grippers earplugs' unique grip rings help create a soft, noise-blocking seal for effective hearing protection. Ideal for people who prefer larger earplugs.

NRR 29 dB\*

Available with Cord  
Slow-Recovery Foam  
One Touch Dispenser Refill

## 3M™ Foam Earplugs

3M 1100 and 1110 earplugs offer the protection you need from the brand you trust — at an affordable price. Soft, hypoallergenic foam and a tapered design help provide a noise-reducing seal in the ear canal. 3M 1100 and 1110 earplugs are easy to roll down and, once fitted in the ear, soften with body temperature for comfortable extended wear.

NRR 28 dB\*

Available with Cord  
Slow-Recovery Foam

## 3M™ E-Z-Fit™ Earplugs

E-Z-Fit earplugs are sized for smaller ears and bell-shaped for easier fitting and removal on the job. Soft, slow-recovery foam comfortably seals the ear canal to help provide reliable hearing protection.

NRR 32 dB\*

Available with Cord  
Slow-Recovery Foam

## 3M™ TaperFit™ 2 Earplugs

Soft, roll-down foam earplugs conform to the unique shape of each ear to help provide a low-pressure, comfortable seal. Offered in two sizes to fit most ears comfortably.

NRR 32 dB\*

Available with Cord  
Slow-Recovery Foam

## 3M™ Tattoo™ Earplugs

With today's louder lifestyles, the challenge to encourage hearing protection compliance among younger workers is even greater. Circled with a barbed “tattoo” design, Tattoo earplugs are designed with a hip generation in mind. An advanced foam formulation conforms to the unique shape of each ear for enhanced comfort and fit.

NRR 32 dB\*

Available with Cord  
Slow-Recovery Foam

## 3M™ Nitro™ Earplugs

Nitro earplugs offer a variety of eye-popping colors in each dispenser box, which makes it easier to see when earplugs are being worn on the job. Advanced foam formulation conforms to the unique shape of each ear for enhanced comfort and fit.

\*Research suggests that many users will receive less noise reduction than indicated by the NRR due to factors including variation in earplug fit, earplug fitting skill and motivation of the user. It is recommended that the NRR be reduced by 50% to better estimate typical workplace protection.
