

**Hubert Russell (Bo) Ansley
Supervisory Emergency Manager
Mobile District**

Bo Ansley is the Chief of Emergency Management Branch, Operations Division, for the US Army Corps of Engineers Mobile District since October 2007. His responsibilities include managing National Emergency and Natural Disasters activities for the District, which holds USACE's most robust debris removal planning response team and serves as custodial district for the agencies largest Deployable Tactital Operations System fleet.

Mr. Ansley lead the response and recovery of 2011 Spring Tornado Event in Alabama, which is considered the state's largest disaster. The recovery included mission assignments for temporay power, temporary housing, debris removal and repair of critial public facilities. Over 300 responders deployed for into the area of operation, which to this day holds the largest daily debris removal totals - volumes exceeded 100,000 cubic yards for over two weeks in June 2011.

Mr. Ansley serves as a debris removal subject matter expert since 2005 with numerous civil response deployments going back to Hurricane Andrew, Miami, FL, in 1992. He has supported federal and state partners in catistropic planning intiatives in Florida and Hawaii. His leadership is unsurmountable in the debris removal cadre as thirty percent of the active teammembers were mentored by him. His team serves as the unofficial center of expertise for waterway debris removal and has supported NOAA publications for coordination in Alabama and Florida.

Mr. Ansley has been with the Army Corps of Engineers since 1989. He intitally served as a recreational designer and has worked entirely with the Mobile District. He resume includes OCONUS deployments, including Northern Afghanistan District from Aug 2011 – Apr 2012, where he served as Emergency Manager and Contracting Officer Respersentative for multiple security contracts.

Mr. Ansley is an active member of the Mobile Post of the Society of American Military Engineers and served as Readiness Committee lead for 2012 – 2013. He successfully completed USACE's George Washington University Emergency Management graduate certificate program in 2010. He also has a bacholor degree in Landscape Architecture from the University of Georgia, 1989.

Mr. Ansley received the US Army Corps of Engineers' Civil Responder of the Year award for 2016.
