Featured Member Elements of Design

We are proud to introduce this week's featured member – Elements of Design!

Elements of Design began from the inspiration of two women with the same vision; to do what we love, love what we do and share it with others. Our ultimate goal is to provide exceptional customer service by giving our clients one-on-one attention throughout the complete interior design/build process to create a home that reflects their personal vision and individual style.

We are a full-service Design Center that is committed to creating an outstanding selection of choices, presented in a well-organized manner. Our design team has over 25 years of experience and is a leader in the design industry. Elements of Design co-owner, Deanna Senior, was Williams County Project Manager and an integral part of the 80,000 sq ft Williams County Highway Complex team that received an award for Design Excellence in 2016. She has worked on many residential and commercial projects here in Williston over the past 6 years. Karen Kuehl, Elements of Design co-owner, comes with 10 years of residential real estate experience, and a wealth of administrative background. We often say, "Deanna is brains; Karen is the brawn"

No project is too large or too small, we work with individual clients who simply need a design consultation for a remodel, or a full Design-Build project where we communicate the clients design needs and specifications to their builder. Our commitment to excellence makes the new home build process easier for client and builder alike.

Elements of Design services vary for each project. We work side-by-side with the client and their builder from conception to completion on a new home project. We are also available to Design/Consult specifications for commercial projects and assist with furnishings, office systems and lobby furniture.

For the weekend warriors, we can order any products seen in our showroom, select something from our extensive library or an item found on the internet. Our trade partners range from building materials to fabrics and furnishings.

Did You Know?

Elements of Design has a full customized line of window treatments, with competitive pricing that includes installation.

Call 701.774.3119 for a design or window treatment consultation.
