

# Kern County Superintendent of Schools

## Professional Development Session

For K-12 teachers

**USE THE ENVIRONMENT AS THE BACKGROUND WITH THE INNOVATIVE EDUCATION AND THE ENVIRONMENT INITIATIVE (EEI) CURRICULUM TO TEACH STUDENTS COMMON CORE AND NEXT GENERATION SCIENCE.**

An EEI Teacher Ambassador will demonstrate lessons from EEI Curriculum units. All participating teachers will receive teacher and student materials of the subject, topic, and grade level of their choice. These units help students to be better informed when they make choices that affect their own health and the future of a healthy environment.

### The EEI Curriculum is:

- Approved by the California State Board of Education.
- Designed for use as a replacement for select sections of your current textbook.
- Aligned to select state standards and supports California Common Core Literacy Standards and a great transition to the Next Generation Science Standards.

**Date & Time:** Thursday, January 19, 2017  
4:00 – 6:00 pm

**Place:** Kern County Superintendent of Schools

[www.CaliforniaEEI.org](http://www.CaliforniaEEI.org). Additional Units will also be available for **FREE!**

**EEI Questions?** Please e-mail: [Kirk.Amato@CalRecycle.ca.gov](mailto:Kirk.Amato@CalRecycle.ca.gov)

*"The EEI was written for the 21<sup>st</sup> century...it anticipated many of the things you find in Common Core Standards...creating a connection between reading and writing and subject areas and a literacy strand for History/Social Studies...it requires thinking about it, critically."*
