

# Maker World Week

---

## Seven Stars Arts Center

**MAKER WORLD WEEK for ages 7-12**

**June 19-23, 9:30-2:30 with Cynthia Day at Seven Stars Arts Center, Rt 14, Sharon, VT**

With a wide variety of materials and digital media, this S.T.E.A.M. program will include construction of cardboard pinball machines, simple robots, and simple electronic wearable items. Throughout the week, children will have options to tinker and create as we make a communal "Chain Reaction" that begins on one table and travels to others until reaching a finale. Participants may choose to integrate their creations into video expressions that can be filmed and edited to include sound and animations.

Students should bring a lunch, snack, and drinks. All Maker materials will be included. The program will be held indoors, but lunch may take place on the lawn of Seven Stars. Our day ends at 1:30-2:30 when families are invited to come see what the kids have been creating during the final hour of their day.

Total tuition: \$250. Pre-registration with \$100 due by May 19th, final \$150 due by June 9th sent to: SSAC, PO Box 216, Sharon, VT 05065

**Only 8 spaces available! Registration questions, and to request an application: [shannon@sevenstarsarts.org](mailto:shannon@sevenstarsarts.org)**
