

**Chris Sharek  
President  
Sharek Solutions, Inc.**

Chris is a proud native Floridian. He grew up on the Space Coast and completed his BS and MS in Engineering at UCF in Orlando. Chris attained his Professional Engineer License and Board Certification as an Environmental Engineer.

After serving as the Utilities Manager for a municipality and years with international engineering firms, he started Sharek Solutions, Inc. in 2015. His company focuses on sustainable solutions including creative, innovative designs for infrastructure projects. Recent projects include an LED lighting retrofit of the City of Sarasota Commission Chambers, electric vehicle charging stations at SRQ and the Town of Longboat Key, and composite material decking at the 10<sup>th</sup> Street Boat Ramp at Centennial Park.
