## SENSORY-FRIENDLY PERFORMANCE

**SUNDAY, DECEMBER 17 @ 7:00 PM**

**The Sensory-Friendly performance is intended for individuals on the autism spectrum, those with other sensory sensitivities, and their families.**

- The House Lights will be dimmed, but kept on during the performance
- The music will be played at a lower level
- Sudden noises and sound effects will be either eliminated or altered to be less alarming
- There will be designated areas where restless patrons can stand and watch during the performance
- Spaces between patrons will be preserved to allow for easier movement in and out of the rows during the performance

One should expect that there will be greater tolerance than normal for noise from the audience and people entering and exiting the theatre during the run of the show.

### MEET YOUR SEAT DATES:

**Tuesday, December 5 at 5:00 pm**

**Tuesday, December 12 at 3:00 & 7:00 pm**
