

Rakie & Linda Rehkop

## **RAKIE REHKOP**

Rakie has been a startling hands-on and remote healer for the planet and for individuals for more than forty years. He has been a trans-channel for the last 25 years, a speaker, composer, writer, artist, and, like many, carries a substantial piece of the vision of heaven on earth.

This has had several expressions throughout the years: planetary intensive healings held in Lake Arrowhead, Idylwild, the Sangre de Cristo Mountain Range, and the Garden of the Gods; the release of Metatron's Wheel, the introduction of Crystalline Generators, the "pede" work with the world's pyramids, the Celestial Navigator, Star Chamber, Terra Kin-Ra Initiations, and currently, the Geometry of Light.

Rakie is known, affectionately, as the *fractal heart*. He works daily with his wife, Linda Rehkop, illuminating aspects of the journey to a fully realized planet. Linda, is co-author for the *Metatron's Wheel Addendum*, for *Rakie Letters*, and for *Voice of Shamballa*, all generated to share the profound information received. *RakieLetters* will format *The Geometry of Light*, current and relevant channeling sessions, and your interactive voice, to empower participants creating an updraft of light that the world needs at this particular moment in time. Linda has been his meditation guide for 19 years and is Reiki Master I and II and Terra Kin-Ra Initiate. Dr. Linda Niemeyer has also been a long-standing guide, his computer artist for the *Metatron's Wheel*, and his co-author to the original companion book to *Metatron's Wheel*, (C) 1996. Both Lindas regularly co-present seminars with Rakie, besides being writers and teachers in their own right. Dr. Niemeyer sits on faculty, as online professor for Boston University
