

# 2017 HOME & GARDEN SHOW

**Sponsored by the Home Builders Association**

**March 9-12, 2017**

Thousands of visitors will flock to our center space in “The Gardens” (lower level of the River Spirit Center on the Tulsa Fairgrounds) to learn gardening techniques and stroll through our creative gardens. Inspired by the 2017 Home Builder’s Associations’ theme to pay homage to our military and first responders, Tulsa Master Gardeners have assembled numerous tranquil spaces.

Sit on a bench in the **Memorial Garden** set around a calming pool reflecting flags of all branches of our armed services. A cottage with a **Four Season Garden** is depicted with “visitors” arriving to pay tribute to an MIA family in a museum setting (complete with a cannon.). **Zen, Butterfly and Water Gardens** add to the peaceful serenity of other sections of the MG area. Children will learn how insects eat while they assemble “bug heads” with various mouth-types in the **KidZone**. Adjacent to the children’s area live and displayed insects will fascinate all members of the family. Petting is permitted in the **Insect Adventure** area...if you dare! A **vintage firetruck** will be easy to spot in this area, too. A henhouse, composting area and rain barrels can be found in **The Victory Garden** on the northwest corner of the exhibit area. Learn which plants grow best in our part of the world in our state-shaped **Oklahoma Proven Garden**.

Tulsa Master Gardeners will be on hand throughout the exhibits to answer questions and give visitors free Garden Journals, tree seedlings and other goodies. As a special treat, **Oklahoma Gardening** host **Casey Hentges** will be in the booth to chat with visitors and give out small gardening gifts on Saturday, the 11th.
