

News from First Presbyterian, Clarksburg

The First Presbyterian Church of Clarksburg has a chair lift for stairs for sale (\$800 or best offer). The chair is an Excel Model and is suitable for straight stairs 13 feet and shorter. The people who installed our new platform lift said that they could install this used chair lift for about \$600.

We also have a working 54 A Baldwin home organ. The organ is free to a good home. The organ cost \$1,417.13 in 1967. It has a heavy, well-built cabinet with the old tube style electronics. This is a real collector's item. Come collect it!
