

Attention all child care providers and preschool teachers!

Are you curious about children's behavior or development?

A developmental screening can let you know if the children in your care are on track. Join us for an overview to learn how to use and implement these easy screenings into your child care program or preschool!

The Ages & Stages Questionnaires (ASQ's) are quick and easy developmental screenings that are designed for children ages 0-5, to be completed by parents or primary caregivers. These questionnaires encourage parent-caregiver involvement, and helps parents learn more about their child's development. If there are developmental or behavior concerns, they will be highlighted in the final results of the questionnaires.

Wednesday, September 5

1:00 - 2:30 pm

or

Tuesday, October 2

5:30 - 7:30 pm
