

Does your company need employees that have mechanical, electrical or machining expertise?

Apprenticeship training at Penn College is starting soon!

In early 2018, Penn College will begin training to support apprenticeship programs in Mechatronics and CNC Machining with funding available from CPWDC to offset the cost to companies.

To learn more, please attend one of the upcoming curriculum planning meetings on **December 11th** at:

Penn College's Workforce Development & Continuing Education (WDCE) Office
1127 West Fourth Street
Williamsport, PA

Mechatronics: 9:30am – 12:00pm

CNC Machining: 1:00pm – 3:30pm

To RSVP or for questions, please contact John Paul at JPaul@cpwdc.org.

Penn College
