

Hi, I'm Karla Stoermer Grossman. I have been a member of AAFSC for about 46 years and have 2 daughters who also skate and compete. I was a competitive skater as a child (singles and Hockettes) and came back to competition as an adult—both as an individual and as a Hockette (Open and Masters).

My recent volunteer experience with AAFSC includes:

- Coordinating lead for all medical coverage for AAFSC events and competitions.
- Judge for the Basic Skills Competition.
- Hockettes manager – several years

Outside of the rink I am a nurse at Michigan Medicine- Pediatric Pulmonary Division, working as a Clinical Care Coordinator for a high-risk asthma clinic. I also work as a Senior Quality Analyst with the Quality Analytics Department at Michigan Medicine.

I am interested in serving on the AAFSC Board because I would like to be more involved in AAFSC, and because I recognize that any figure skating club's success depends entirely on the involvement of volunteers. Some strengths that I would bring to the Board are:

- I understand the history of the Club.
- I have experience as a parent and a skater.
- I know both the competitive singles experience and the synchro experience.
- I have a strong belief that open and honest communication is crucial for a good program.
- I am passionate about skating and the continued success of the AAFSC.

Thank you for your consideration!

**Karla Stoermer Grossman**
