ALL students deserve high expectations that will prepare them for life beyond high school. Students with disABILITIES, now more than ever, are able to earn a high school diploma through alternative academic pathways and job-related training. Planning for students on an alternative pathway is very similar to planning for students on the traditional pathway.

During this workshop, you will get an **in-depth look** at Louisiana's Act 833, understanding of **alternative pathways** available to students with disABILITIES, planning, graduation requirements, and the **role/responsibility of the IEP Team and school in implementation.**

Changing Lives. Every Day.
