

Train with HCCI and become part of the future of home-based primary care.

Learn real-life tools and techniques designed to help standardize, elevate and transform your HBPC practice to become a part of the next generation of medical care.

Two-Day Classroom Workshop

Highly interactive, discovery-driven course designed to teach HCCI's approach to home-based primary care from both a clinical and practice management perspective. Case-based sessions focus on factors unique to home-based primary care:

- Patient assessment
- Medication management
- Infection control
- Coding and billing
- Staffing
- Reimbursement models

Workshop Objectives

Upon completion of this activity, learners will be able to:

- Describe the role of HBPC in various contexts, including Population Health, Public Health, and the developing systems of healthcare.
- Apply the American Geriatric Society's (AGS) Guiding Principles for the care of people with multi-morbidities in the home setting.
- Provide optimal and efficient patient care in a simulated home setting, and demonstrate appropriate coding and documentation for the visit.
- Examine and discuss the business models, economic drivers, and quality indicators for HBPC and their impact on care delivery.

“An incredibly valuable experience. We delved into the complex clinical, psychosocial and administrative aspects of house call medicine. I left each day inspired and energized with pages of ideas for our program. I also felt like I had joined a community and gained access to resources to continue to expand my skills and knowledge.”

Karin Ouchida, MD
Program Director
Geriatric Fellowship Program,
Weill Cornell Medicine Division of
Geriatrics and Palliative Medicine

Three-Month Group Mentorship & Ongoing Support

Three one-hour Webinars, delivered monthly beginning the first month following the workshop.

- Creating a Business Plan and Budget for a Home-Based Primary Care Practice
- Staffing Models and Strategies for Home-Based Primary Care
- Building Value and Metrics in Home-Based Primary Care

Also, you'll have access to an exclusive HCCI University™ online discussion forum which includes downloadable tools, forms, and templates. This shared learning experience offers the opportunity for our experts to address your questions and challenges, following your workshop attendance.

About the HCCI Center of Excellence at University of California, San Francisco

The University of California, San Francisco (UCSF), is a research university located in San Francisco, California. UCSF is entirely dedicated to health sciences and is a major center of medical and biological research and teaching. It is ranked as one of the top universities in the biomedical field in the country and around the world. The UCSF School of Medicine is affiliated with UCSF Medical Center and focused on patient care, research and education.
