

ISO 9001:2015 Comprehensive Transition Training: Requirements reviewed clause by clause; new concepts discussed

This is one of our online training courses in the ISO 9001:2015 quality management system family. The course content will support all your organization's needs whether transitioning to ISO 9001:2015, an in-depth understanding of the quality standard is required, or a solid working knowledge of the standard is needed to prepare for the future.

The new ISO 9001:2015 standard promotes using a Plan-Do-Check-Act cycle continuous improvement approach, the need to demonstrate effectiveness, and application of risk-based thinking through the process approach.

This course clearly contrasts the differences between ISO 9001:2008 and ISO 9001:2015, interprets the concepts and terminology of the new standard. A management briefing is included and risk-based thinking lessons. This self-paced, online course identifies potential nonconformities and opportunities for improvement when transitioning. Valuable job aids include: a copy of the ISO 9001:2015 standard; 9001:2015 Checklist with new requirements marked and discussion points; a Gap Analysis Checklist; Annex SL; and a course Desk Reference. The course takes approximately six hours. Upon successful completion, a certificate for 0.6 CEUs will be issued. Subscription length is 90 days.

Upon completion of this course, managers, supervisors, and auditors will be able to:

- Discuss strategic and tactical organizational issues for transitioning to ISO 9001:2015
- Explain how the new standard is structured and organized using common text
- Understand and explain the new and expanded requirements in the 9001:2015 standard
- Understand risk-based thinking and its application
- Identify potential nonconformities using the Gap Analysis Checklist

Quality Web-Based Training is accredited by the International Association for Continuing Education and Training (IACET) and is authorized to issue IACET continuing education units (CEUs).
